REFERENCA O USPEŠNEM DELOVANJU GASILNE AMPULE BONPET

CONFIRMATION ABOUT SUCCESSFUL FIRE EXTINGUISHING WITH FIRE EXTINGUISHER BONPET

Motoren fikk så omfattende skader i brannen at den må skiftes ut. Foto: Tromstrygd/Torbjørn Lorentzen.

Angleški prevod:

The fishing boat named K2 Senior was stationed in the port of Fjord Whale. Due to no shore power connection it used its auxiliary engine to supply the needed power. On the 18th of December the fire broke out in the engine bay and was extinguished by the Bonpet ampoule. The ship only sustained a damaged engine. The main cause of the fire was engine overheating due to the coolant or oil.

Your sincerely
Eric Fosland CEO

Slovenski prevod:

Ribiška ladja K2 Senior je bila privezana v pristanišču Fjord Whale in zaradi nobenega zunanega vira energije je bil vklopljen pomožni agregat ladje. Požar v strojnici, ki je izbruhnil 18. decembra 2011, je bil uspešno pogašen z avtomatsko gasilno ampulo Bonpet. Poškodovan je bil le eden od motorjev. Glavni vzrok požara v strojnici je bilo pregrevanje hladilne tekočine ali olja.

Lep pozdrav
direktor Eric Fosland
